FOREWORD

The Pupils' Performance Report for Bhutan Certificate of Secondary Education (BCSE X) for December 2006 examination was published for the first time in the year 2007, five years after the then Bhutan Board of Examinations (BBE) took over the Class X examination from the Council for the Indian School Certificate Examinations (CISCE, India) in 2001.

The Pupils' Performance Report for Bhutan Higher Secondary Education Certificate (BHSEC XII) for December 2007 examination was published for the first time in the year 2008, one year after the then BBE took over the Class XII examination from CISCE, India in 2006.

Initially the Pupils' Performance Report for BCSE and BHSEC were published as separate volumes. For the last few years, both the reports have been published in one volume. Since 2012, the Language and Culture Studies (LCSC X & XII) examination has also been a component of the analysis covering all the high-stake public examinations conducted by the Bhutan Council for School Examinations and Assessment (BCSEA).

This report is published annually to provide feedback to schools, teachers and other stakeholders on the candidates' performance in the public examinations.

The BCSEA would like to thank all the Dzongkhag/Thromde Education Office, Principals, school management, Supervising Examiners, Visiting Examiners and Invigilators for their unwavering support in conducting the examinations safely and successfully as always.

Further, we would also like to thank the teachers and other participants who attended the Examination Marking Centre.

We look forward to providing similar reports to provide meaningful feedback to support the teaching learning process and policy makers.

INTRODUCTION

The Pupils' Performance Report (PPR) on the public examinations for various levels are published annually. The PPR for the 2022 BCSE (X), BHSEC (XII) and LCSC (X & XII) examinations endeavors to provide worthwhile observations to our schools, teachers and relevant agencies on the performance of our students.

Some of the main features of this report besides the overall national, dzongkhag-wise and school-wise performance of our students who appeared the examination with regard to pass percentage, mean scores and also gender difference in performance in all subjects are:

- highlights of the examination;
- passing criteria for various examinations;
- number of candidates who passed in CA, Practical and Theory components by gender;
- chapters on Conduct of examination, Management and Marking of answer scripts, and Clerical recheck outlines the number of participants involved in each activity, explains the processes to assess the standard of candidates' achievement at the end of classes X and XII.

We wish our schools, teachers and students a safe and successful academic year 2023.

3.3 ANSWER SCRIPT MANAGEMENT

This process starts two days before the marking of the answer scripts. During this process, the examination materials from the centres are handed over by the Camp Coordinator of the Marking venue to the Chief Manager. This is followed by preparing the subject-wise answer scripts for marking by the managers. Starting from 2021 board examinations, the administrative numbers and lot numbers were generated by the Tabulation System. Administrative number assigned for each candidate is written on the specified space on the cover page of each subject/paper and the attached leaflet with the candidate's identity removed. This maintains confidentiality and ensures fairness in marking. Then the answer scripts are kept ready for issuing to marking rooms by arranging them into lots with each lot containing about 50 number of answer scripts.

3.4 MARKING

- Before the marking begins, the model answers and the marking schemes are thoroughly discussed and standardised in subject groups;
- The respective chief markers are responsible for the movement of answer scripts from the management to the marking rooms;
- To maintain consistency in marking and reduce subjectivity, the markers assess the same items for the population who appeared the examination;
- To ensure accuracy of marks awarded for each item, the marked answer scripts are further cross checked and verified that all items are marked;
- To ensure consistency in marking and the award of marks, the chief markers conduct random re-evaluation of marked answer scripts providing feedback to the markers;

- Then the marked answer scripts are compiled in ascending order and handed over for item tabulation. This ensures zero error in the award of marks by the markers;
- The Examination and Assessment Officers provide logistic and professional support to their respective subject groups during the marking process.

3.5 TABULATION

Double entry of marks from the marked answer scripts was initiated in the year 2018 to ensure accuracy. There are two separate systems to capture item-level marks (item tabulation) and cover page marks (mark tabulation). Marks from these two systems were manually validated. Starting from 2021 board examinations, a new tabulation system was implemented for the capture of examination data. It involved two independent entries of marks from the marked answer scripts into the system by the tabulators. Now the item-level marks and cover page marks are validated by the system.

Item Tabulation

- Item tabulators enter all the candidates' marks item wise for each subject. This ensures all marks are entered 'item wise' and additions done correctly.

Mark tabulation

- Mark tabulators enter the totalled marks for each question from the cover page against each candidate.

The tabulators don't punch in the index numbers. Barcode reader scans the barcode of the index number on the cover page and the admin number is extracted from the system which pops up automatically. Against this admin number the item tabulators and mark tabulators enter the mark. This ensures confidentiality of the candidates.

Validation of Total Marks

Tabulation system automatically flags candidate's paper if the total marks entered by the item tabulators and mark tabulators do not match. If the error is with item tabulation, the paper is sent to item tabulators for rectification and if the error is with mark tabulation, error is rectified by the mark tabulator. Only when the total marks match, the mark tabulator can save the marks for the result processing. This ensures that marks entered correspond to the correct index number minimising human error and 100.00% accurate results for the candidates.
